The Future of living is Here

Be Smart Remain Secure

About us

At Remal we take the current technologies and install them into your home or business by expelling the complexity. We provide technological services: entertainment, automation, energy management and security to enhance lifestyles

- Smart Home Automation
- Safety (Security & Surveillance)
- Entertainment solution

Security & Surveillance

Security solutions to protect your home, business, data, and your loved ones.

- CCTV** —————
Protect buildings, stores, and government facilities with our CCTV solutions. HD cameras, and clear audio.
- Access Control & Attendance** —————
Have more control over your work place. Protect your important files and data, and manage the attendance tables easily.
- Intrusion Detection** —————
Get alarmed when a window breaks, have the lights on when someone comes to your front door.
- IP Phone** —————
Enjoy faster and secure communication in your business.
- Structured Cabling** —————
We install and test every wiring for the security system ensuring ip devices working perfectly.

Smart Home Automation

Using the latest technologies, you can turn your house into a futuristic place. Control your home from smartphones, use voice commands to turn on the lights, lock the doors, and more. Enjoy luxury life everyday.

- Smart Sensors** —————
A smart sensor can detect smoke, CO2, gas, and flood leaks.
- Smart Hubs** —————
With Home Automation Solutions, completing every task is now at your fingertips or a voice command away, making your day easier and more productive.
- Smart Lighting** —————
Voice control allows you to dim, change the color, or have your lights move to the beat of the music.
- Smart Curtains & blinds** —————
Programmable blinds and curtains that can be commanded by voice.
- Smart Health & Hygiene** —————
Using smart cleaning bots and air purifiers, you can keep your house clean and fresh.

Entertainment Solutions

If you can envision it, Remal can implement it. Remal designs luxury home theater solutions for ultimate audio/video experiences.

With our Entertainment Solutions, you can turn your house into a cutting-edge entertainment hub where you can enjoy the greatest in music, movies, and games.

- Smart Audio** —————
Systems that distribute music to all areas of the house and provide a slew of advantages for music lovers.
- Streaming Devices** —————
You can stream music, movies, or photos from your smartphone, tablet, or PC to your TV or other smart device.
- Projector Set-up** —————
With smart home projectors, you can experience the cinema experience at home.
- Smart TV Solutions** —————
Get the greatest watching experience possible, or use voice commands to manage your TV.
- Gaming Hub** —————
Whether you have a PlayStation, a Nintendo Switch, or an Xbox, setting up an online gaming console will provide you with the finest gaming experience.
